

## CLARKSBURG'S REPLY

Clarksborg Accepts the Evidence and Many Clarksborg Readers Will Profit by It.

Which is the more weighty proof—a few words from a Clarksborg resident, whom we know and respect, or volumes from strangers in distant towns? There can be only one reply. J. H. Stephenson, Supt. Metropolitan Life Insurance Co., 106 Lincoln Ave., Clarksborg, W. Va., says: "My kidneys were disordered and caused backache. Doan's Kidney Pills gave complete relief in this case. A few years ago I publicly endorsed Doan's Kidney Pills and I don't hesitate to confirm this statement."

"If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Stephenson had—the remedy backed by home testimony. 50c all stores. Foster-Milburn Co. Props., Buffalo, N. Y."

### The Remedy For Eczema

Also for Salt Rheum, Tetter, Psoriasis, Lupus, and All Skin Afflictions.

Even a Microscope Won't Find a Blemish After S. S. S. Gets Through.

All skin troubles should be attacked from within by giving the blood circulation a good daily bath. This is accomplished with S. S. S., the best known and most highly recommended blood purifier ever discovered. Its action is very rapid. Its vegetable nature is such that it naturally goes right into the blood, saturates the entire circulation, bathes the tissues with an influence that enables the skin to heal quickly. The action of S. S. S. is that of an antidote, and this fact has been demonstrated time and time again in the most severe forms of weeping eczema.

Its influence in the tissues where the tiny arteries transfer the red blood for the worn out blood to the veins is quite remarkable and goes on constantly with every tick of the clock—the beat of the heart.

And new skin is thus caused to form while the germs of irritating influences that cause eczema are scattered and their harmful nature entirely suspended.

S. S. S. has a wonderful tonic influence in the blood because it contains no "dope," is not a "physic," is entirely free of any mineral drugs or any other drugs except the remarkable medicinal effect of the pure vegetable products of which it is made.

Few people realize how harmful are many of the strong, crude ointments that used to be in favor before they learned that S. S. S. is safe, speedy and sure. Ask at any drug store for a bottle of S. S. S. Give it a good trial and you will soon see a decided improvement in any form of skin trouble. Write to The Swift Specific Co., 137 Swift Bldg., Atlanta, Ga., for special free advice on eczema and any other form of skin or blood trouble.

Jerome W. Stuart will sell 46 lots in the Alexander addition, Hepzibah, at public auction Saturday, May 10, at 2 p. m.

## THE THEATERS

The Keyes Sisters and their company will offer for their third week of their engagement, Miss Beulah Poynter's great success, "The Little Girl That He Forgot," a story of swamp life in Missouri, and a play that has a beautiful heart to heart love theme, while the comedy is the old, old southern negro, which, with Chester Keyes in this character, assures patrons of the Robinson Grand plenty of good hearty laughs. The scenery for this production is the finest ever seen in this city and no one should miss seeing the magnificent stage settings, the swamp scene in the third act, and the prison and gallows in the fourth. Manager Chet Keyes assures patrons that tonight's production of "The Little Girl That He Forgot," is the finest ever produced in Clarksborg.

An entire change of vaudeville by the Misses Doi, and Helen Keyes, and the happy-go-lucky comedian, Chet Keyes, will offer a splendid line of vaudeville in conjunction with the play.

The newsboys of the Telegram will be guests of Manager Chet Keyes on Wednesday night, when all boys will meet in front of the court house at 7 o'clock and be escorted to the Grand by Chet Keyes, where seats will be reserved for them.

The usual pink tea and reception will be given Wednesday afternoon, when souvenir photos will be given to every one.

For the first half of the week the bill at the Odeon will contain first class vaudeville acts that are sure to please, the Lincoln trio, singers that know how to sing, and Radcliff and Hall and a hobby horse in a novelty skit that will amuse as well as entertain. The regular reels of pictures will be shown with features.

The popular Bijou starts off the week with one of the most popular actresses on the American stage today, Miss Helen Gardner will be seen today at the Bijou in "Allice," or "The Test of Friendship," a beautiful and thrilling love story. Every detail in this Vitagraph production is perfect. Photography, costumes and beautiful settings. Another fine picture for today is "A Mississippi Tragedy." This picture takes you back to the early stirring days on that famous river. The picture shows scenes including a card game, love scenes, etc. To miss this photo play treat would be a shame.

## APRIL MARRIAGE LICENSES.

W. Guy-Tetrick, county clerk, made a report Monday to the state auditor showing that forty eight marriage licenses had been issued at his offices in April.

Graham Crackers baked by the National Biscuit Company have a flavor and zest all their own. You will relish them. They will nourish you.

Martin-Neely Grocery Company, of Clarksborg, of which C. C. Martin, is president, has been increased from \$100,000 to \$150,000.

The Fayette Traction Company, of Fayetteville, of which C. W. Dillon is president, has increased its authorized capital from \$50,000 to \$75,000.

## FLORIDA

As Described by Mr. Deem Who is from This Section of the Country.

Melbourne, Fla., May, 1913.

Editors of Telegram:

As I have had so many inquiries in regard to Florida I take this way of answering them, as well as to give all interested persons a general idea of Florida. If we believe real estate agents we are led to believe Florida to be a veritable paradise with no drawbacks whatever, but I am here to say "do not be taken so easily, or there is no place on earth without some drawbacks."

So, I shall give you a brief sketch as I find conditions here. In the first place Florida is divided into belts. In the north you have the vegetable and the cotton and cane belt, and on the east coast and central part of the state as well as the west coast, known as south Florida, we have the orange belt, and in the extreme south the pine apple and tomato belt as also vast prairie tracts over which thousands of cattle range. Also in the southern central part around Okeechobee lake are vast tracts of swamp land known as the Everglades, which are being drained by the government by great canals draining the everglades into the ocean and gulf of Mexico. The state on the east side is very flat, gradually rising until on the west and northwest side there are hills and many lakes, the highest point in the state being about 300 feet above sea level.

Of course if you expect to locate here intending to engage in any particular branch, you must go to some particular point in order to meet with success. For instance, if you expect to raise oranges, you must go to the orange belt, either east, middle or west coast; for pine apples in the pine apple belt, around Fort Pierce; for celery around Sanford; for potatoes, in the potato belt near Hastings, and for tomatoes near Miami, and tropical fruits in the extreme southern part of the state. Each crop has a particular belt of its own.

Now, in other respects, this state has its interesting features. For instance in scenery Florida can not be excelled. A trip up the Oklawaha river or down the Suwannee river fully confirms this, for to see the

great live oaks with their fastuous of Spanish moss, with the many alligators, mocking birds and many other sights, is something never to be forgotten.

In regard to social conditions this state is far different from northern states. The color line is very closely drawn between the whites and the negro race. Negroes here are not allowed the privilege of riding in the same car with the whites, nor is he allowed to eat at the same table nor attend the same school as the whites attend, or the same church. And many of the people here southern people known as "crackers," are none too friendly toward the northern people, whom they regard as trespassers, for the crackers live mostly by raising cattle and hogs, and they hate to see their range usurped by northern settlers. Hogs, that is native hogs, are called "razor backs."

To farm here it requires a good deal of cash and two or three years to get your land in shape, for farming, saying nothing of the expense of heavy fertilizing with commercial fertilizer, and much labor besides. So anyone coming here to live must expect to meet with much expense, trouble and setbacks. Take my word for it, do not believe all real estate men tell you, but come and see.

Yours truly, T. W. DEEM.

DR. POWELL HERE.

Dr. R. R. Powell, former president of Broadus Institute, was here from Richmond, Va., Sunday visiting his daughter, Mrs. Frank E. Highland. Prof. Powell is associated with a leading Richmond newspaper and is devoting his time now to summer educational features of that publication. He left on an early morning train for Winchester.

W. E. Haymond, of Sutton, is a visitor in the city.

## EZO FOR THE FEET
